Full-Service Offering

- Trial, Appeal, Enforcement and Recovery Funding and management of disputes involving commercial, antitrust, intellectual property, arbitration, whistleblower, bankruptcy and multi-party claims.
- Funding and management of international enforcement matters, including the enforcement of judgments and awards against sovereigns in all continents.
- Funding and management of legal enforcement proceedings related to non-performing loans of banks and subrogation claims of insurance companies.
- After-the-Event cost protection cover in cost-shifting jurisdictions.

Global Partnerships

- Global relationships in the legal, finance, intelligence, insurance, and other industries essential to dispute finance.
- Roland ProzessFinanz, as part of the Omni Bridgeway group, is a leading funder of medium-sized merits and group claims in the German-speaking jurisdictions of Europe.
- Joint venture with the IFC / World Bank (called DARP – Distressed Asset Recovery Program) aimed at funding and managing the enforcement of claims related to non-performing loans in the extended Middle East region.

We are an innovative and reliable partner for individuals, groups, companies and law firms seeking strategic finance solutions.

BENEFITS OF FUNDING WITH BENTHAM IMF

Dispute resolution funding is a mechanism to enable meritorious claims to proceed, and a way for law firms and claimants to mitigate risk.

- ✓ Our funding is non-recourse.
- ✓ Our funding can help pay attorneys' fees, assisting with the high cost of litigation and enabling clients to afford preferred counsel.
- ✓ Our funding lets lawyers and claimants monetize a portion a judgment to access cash and mitigate the risk of reversal.
- ✓ Our funding enables law firms with diversified portfolios of cases to cover most or all of their fixed costs and still recover significant contingency fees.
- ✓ We provide additional analysis of your case—we conduct our own due diligence and we may also confirm our internal analysis with our network of legal and financial experts.
- ✓ We do not control legal strategy or settlement decisions.

Commercial Funding

Funding of commercial cases allows a client to finance all or a portion of the legal fees and costs of their litigation.

International Arbitration Funding

Our international arbitration funding can be used to cover legal fees for a single arbitration or portfolios containing multiple arbitration matters or a mix of commercial litigation and arbitration matters.

Bankruptcy Funding

Our bankruptcy funding presents a host of opportunities for financially strapped companies, creditors, bankruptcy estates and trustees, and their advisors, seeking to maximize the value of litigation claims.

Appeal Funding

Appeal funding allows a client or lawyer to monetize a portion of a judgment while appeals are pending.

WHAT WE FUND

We welcome applications from most jurisdictions. Funding must exceed \$1M.

Law Firm Financing

We fund portfolios of cases for law firms on a non-recourse basis. This helps firms to create or expand a portfolio of diversified cases.

Intellectual Property Funding

We help companies and inventors enforce their rights in high-stakes IP battles involving infringement of trademarks, copyrights and patents and theft of trade secrets.

Whistleblower Funding

Our Whistleblower Funding allows the relator in a qui tam case to fund attorney's fees, cost of the litigation and living expenses while the litigation is pending.
